

Daily Wellness Check

WE NEED YOUR HELP!

HIDOE employees, contracted service providers, visitors and students must complete a wellness check each morning before going to school or work. Please report any illness or COVID-19 exposure to the school or supervisor.

CHECK FOR COVID-19-LIKE SYMPTOMS OF ILLNESS

If any symptoms of illness are present,
do not go to school or work.

- Fever (higher than 100°F or hot to the touch)
- Chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Anyone with COVID-19 symptoms, even mild symptoms, should stay home from school, work and other activities. Those with symptoms who have not been tested should be tested as soon as possible.

**HELP US TO KEEP OUR SCHOOLS
HEALTHY AND SAFE!**

Return to School/Work Criteria

Revised 6/9/22

CLOSE CONTACT

Day 0 is the day of last contact

CLOSE CONTACTS WHO MUST QUARANTINE

- Ages 18+ NOT up to date with COVID-19 vaccines.
- Ages 5-17 NOT fully vaccinated.
- People not able to wear a mask.
- People who are NOT vaccinated.

- Stay home 5 days after close contact. If ongoing exposure, quarantine 5 days after the person with COVID-19 is released from isolation.
- Test recommended on day 5.
- Watch for symptoms 10 days after close contact.
- If symptoms develop, immediately isolate and get tested.

CLOSE CONTACTS WHO DO NOT NEED TO QUARANTINE

- Ages 18+ up to date with COVID-19 vaccines.
- Ages 5-17 fully vaccinated EXCEPT for high risk activities*.
- Recovered from COVID-19 in the last 90 days.
- K-12 school exposed close contacts (see Masking below).
- Test recommended on day 5.
- Watch for symptoms 10 days after close contact.
- If symptoms develop, immediately isolate and get tested.

COVID-19 SYMPTOMS

Day 0 is the day of symptoms onset

ISOLATE AND GET TESTED FOR COVID-19

- Stay home 5 days after symptoms onset AND
- 24 hours with no fever without use of fever-reducing medications AND
- Symptoms improved. If symptoms are not improved, stay home.

A negative COVID-19 test approved by the FDA under EUA and administered by a CLIA-certified lab or under a CLIA Waiver may be used to return before 5 days if symptoms are gone, 24 hours with no fever without using medication, and no recent exposure to COVID-19.

A medical provider may use clinical judgment to allow return sooner than 5 days when there is low suspicion of COVID-19 or diagnosis of another health condition (e.g., allergy).

COVID-19 POSITIVE

Day 0 is the day of symptoms onset or if no symptoms, the test collection day

ISOLATE

- Stay home 5 days after symptoms onset or if symptoms never develop, 5 days after the positive collection date AND
- 24 hours with no fever without use of fever-reducing medications AND
- Symptoms improved. If symptoms are not improved, stay home.

MASKING

Individuals unable to wear a mask consistently or correctly (e.g., preschool age or medical reason) who have tested positive or been identified as a close contact of a positive case, must isolate or quarantine 10 days, regardless of vaccination status.

*HIGH RISK ACTIVITIES

These increase exhalation and spread of COVID-19

- Individuals who test positive must remain out of high-risk activities (e.g., sports and choir) until 10 days after symptoms onset or if symptoms never develop, 10 days after the positive test collection date.
- Individuals who are household or non-school related close contacts not up to date with CDC recommended COVID-19 vaccines **and** boosters for their age group must remain out of high-risk activities 10 days after exposure.
